# CAT3 ISDN 50 PORT TELEPHONE PATCH PANELS

The Cat.3 / ISDN telephone patch panel is a high-density telecommunication panel with 50 Standard RJ-45 Jacks. Print circuit board together with high quality components ensures the Cat.3 performance. All ports are numbered. It offers a simple and economical way to connect the telephone system or the telephone backbone. The panel is available in 1U height.

FEATURES

» Meeting the ANSI/TIA-568-C.2 Category 3, ISO/IEC11801 and EN50173-1 specification.
» Supports T568 A&B wiring & easy installation.
» IDC connector can accept 23-26 AWG solid and stranded cables.
» Industry standard tools like (110 or Krone punch down tools).
» Wire manage hole for easy to manage wires with cable ties.
» RoHs Compliant

ELECTRICAL & PHYSICAL SPECIFICATIONS

» IDC Contact: 0.8mm thickness Phosphor Bronze,tin plating over nickel
» Jack Operating life : minimum 750 insertions
» High impact plastic housing, UL 94V-0
» Jack Contact : Phosphor Bronze,50μinch thickness gold plated over nickel
» IDC Operating life : minimum 200 insertions
» PCB : FR-4,1.6mm thickness
» Dielectric Strength : 1000V RMS for 1min
» Insulation Resistance : 10MΩ min
» Contact Resistance : 2mΩ per contact
» Temperature Range : -10 C to 60 C max
» Humidity : 10%-65%

APPLICATION

» 10BASE-TX Ethernet
» Voice, Video and other applications.
