NETWORK TOOLS

Professional Network Crimp Tool
&
Cable Tester In One

Tooltest is a small hand held cable map tester. It enables network proffesionals to quickly and easily test ethernet twisted pair cable for wiring continuity, opens, shorts, and mis-wires. With a single push of the test button, tooltest will automatically test cable and indicate the result of the cable's pin to pin configuration.

With its unique combination of a Crimper tool and cable tester in one, it is the smallest and most convenient and innovative tool in the market worldwide today.

Features

- Testing for both UTP and STP Cat6 Cat5e Cat5 Network Cable.
- Testing cable for continuity, opens, shorts and mis-wires
- Pin to pin indication
- Test mode selection for run once or test repeatedly
- Auto Power Saving
